

SmartAssistant PDF parsing smoke test. This document exercises the coordinate-driven PDFBox parser used as the default delegation target of the MinerU routing adapter.

Product	Price (USD)	Stock
Keyboard	29.99	120
Mouse	19.50	85

Post-table prose confirms that table cells do not pollute the body paragraphs and that reading order stays correct after table extraction. The embedded figure below is detected but not OCR'd without an external engine.
